

Weekly Times

THURSDAY, MAY 30, 1872.

We would call the attention of our readers to the Cincinnati Gasoline Company's advertisement, which appears in this paper.

**The New Court House.**  
We understand that the Court House Committee of the Board of County Commissioners have agreed upon Mr. E. T. Carr's plan for the Court House. Several alterations from the plan on exhibition at the recent meeting of the Board were suggested, and of course will be made. We hope the work will be pushed along now at a fairly rapid rate so idle hands may obtain employment.

A SPECIAL dispatch from New York announces the arrival in that city of the great steamship Adriatic, of the White Star Line, in seven days and twenty hours from Queenstown, which is the fastest time by nearly a day ever made to New York. This is the second trip of this elegant ship, and already she carries off the laurels for speed, safety and comfort. The White Star Line is now running the best steamer on the ocean and affords all conveniences of modern times. Travellers to Europe will save time and money by making a sea trip.

**Northern Pacific Railroad Lands.**

The above named corporation is now prepared to sell a large area of its lands in the productive state of Minnesota. Particulars regarding terms of sale and facilities furnished to settlers in the way of free transportation, etc., may be learned from the Company's published elsewhere, and entitled "The Wheelbarrow of America." Healthfulness of climate, abundance of water and timber, excellence of soil, and proximity to markets, are the leading advantages of the region in which these lands are situated. The Company sells its lands at low prices, on long credit, and furnishes to settlers some important advantages in the shape of free or cheap transportation. In addition to the Company's lands, there are close to their road Government lands of the best quality subject to homestead entry, free of cost to the settler. The Northern Pacific Company will furnish full information regarding both its own and the adjacent Government lands on application.

**Dan Rice Coming.**

Dan Rice, the old Veteran of a thousand acts, has triumphed over traveling this way and expects to travel his canvas in Leavenworth, Monday, the 31st day of June, A. D. 1872. This information is given in advance, so that the readers of the Weekly Times, probably, may have knowledge of Dan's approach, in order to make their arrangements to visit the city and bring their families along, and especially with a view of giving them time to secure transportation for all the rural girls. The old showman is thoroughly equipped with a first class circus, and displays complimentary notices of his performances without limit. The New York Herald says of him:

"Dan Rice is doing in among us this season like a bright eagle in the great desert of showmen. He gives to the metropolis the only real family entertainment. No New York is so familiar with artistic entertainments as accepted in our day, but with all our experience we have never witnessed such acrobatic and gymnastic feats, such equestrianism, and such a wonderful stud of trained horses as Dan Rice exhibits this season. Send your little ones to see it, and how!"

**A RAID ON THE THREE.**

Awest of the Oldest Horns Thief—Stolen Property Recovered.

Day before yesterday Marshal Hook received a dispatch from the Sheriff of Johnson county, conveying the information that a horse had been stolen from that place, and also giving a short description of the stolen animal. Immediately the Marshal accompanied by Officer Malone and Sheehan, set out in pursuit of the thief, and captured him, together with the horse, before midnight. The thief was overtaken a few miles beyond Easton and brought back to the city. He gave his name as Leyendecker. Yesterday forenoon about 10 o'clock information of another horse stealing affair was received, and before noon Officers Malone and Sheehan had found the thief and arrested the thief. The thief was overtaken a few miles beyond Easton and brought back to the city. He gave his name as Perry. Yesterday forenoon about 10 o'clock information of another horse stealing affair was received, and before noon Officers Malone and Sheehan had found the thief and arrested the thief. The thief gave his name as Wm. Perry or Commodore Perry for short. He is about fifty-five years of age and is said by the police to be the oldest horse thief in this neck of the woods." The horse is a fine animal worth at least \$200, although he had sold him to Mr. Hughes, in North Leavenworth, for \$90. The horse was stolen from Buchanan county, Mo., and it seems from the statement of the thief's owner that Perry had been loitering about the farm for a day or two, and hence suspicion was directed to him when the animal was missed. Under the command of Marshal Hook, the Leavenworth police renders excellent service in arresting thieves and recovering stolen property.

**BLOODY WORK.**

P. J. McNamee Stabbed in the Right Breast.

A pistol ball fired at A. Camper,

About 8 o'clock Saturday eve, a bloody affray happened near the corner of Fifth and Seneca streets. It appears that quite a quarrel in that neighborhood has grown out of an alleged influence on the lots of the built district where McNamee's stable was situated, and that Peter Hogen, P. J. McNamee and A. Camper were concerned in the dispute. Hogen and Camper being witnesses on the trial of McNamee for permitting the nuisance. The first difficulty took place between Hogen and McNamee, in which the former was struck once in the face and had his clothing torn. He (Hogen) claims that McNamee's stabbed him without provocation, coupling the blow with blows. Immediately after, Camper and McNamee got into a row at the same corner, in this affray Camper stabbed McNamee twice in the right shoulder and the upper right breast. After the stabbing, McNamee was conveyed to Dr. Brock's office, where his wounds were dressed. We went to the Doctor's office for the purpose of getting knowledge of his injuries, and if possible, obtaining his version of the affair, but upon seeing us, he threatened immediate death and destruction because The Bellatrix published something about him two years ago. When we saw the wounded man, he was bleeding profusely and Dr. Brock was doing everything to prevent the effusion of blood. The wounds were very ugly, and deep, and last night the Doctor was apprehensive of his death, which would render his condition critical. After the stabbing Camper went home and came back again to the same corner where the fight took place with his clothes torn. He (Camper) claims that he and Mike Rogers sat at the corner, and Rogers informs us that Camper, knowing that he was a friend of McNamee, immediately made a stand to his side, and offered him a bargain. He is this able at times when trade is dull, or when he has no customers, to offer a great discount. To our knowledge, he is a man of good character, and is well situated. This is a hard, callous, shadowy sort.

The reason why we can afford to so much underbid other dealers, arises principally from the following cause, viz:

We keep a large stock of goods, and know every end in and never buys less than a dozen pieces at a time.

We have a large stock of goods, and know every end in and never buys less than a dozen pieces at a time.

We have a large stock of goods, and know every end in and never buys less than a dozen pieces at a time.
